CHURCH NOTICES AND ACTIVITIES

United Church Notes

Arrangements have been made for the supply of the services during the absence of the pastor, the Rev. J. R. Geeson, who will be away in attendance at the General Council to be held in Kingston, Ontario.

On Sunday, September 9th, the services at Paschenedale and Roseberry will be in charge of the Fellowship Group; the evening service in town will be conducted by the Rev. R. W. Griffiths, B. A., of Jarrow.

September 16th, Albert and Alma Mater services will be in charge of the Group; the evening service in town will be in charge of the W.M.S.

September 23, services at Paschenedale, Roseberry and town will be conducted by the Rev. T. E. Armstrong, B. A., B. D., of Wainwright.

September 30th, services at Albert, charge of the Rev. J. K. Smith, of British and Foreign Bible Society, Alma Mater and town will be in Edmonton branch.

All these services will be at the usual hours, in the morning at 11, in the afternoon at 3, and in the evening at 8. We urge upon all our friends to avail themselves of these services.

Anglican church service will be held next Sunday, September 9th, at 3 p.m. in the United Church.

The September meeting of the ladies' aid will be held next Thursday, September 13th, at the home of Mrs. J. H. Elliott. All members are urged to be present as a lot of work is coming up for the coming fall. Every-body welcome.

Radios and Accessories

For new and used radios, tubes and batteries, see us. Now is the time to have your tubes tested for the coming radio season, which promises to be the best yet. We have the latest tube and set testers. A stock of tubes all ways on hand. Before trading or buying see and hear the new Sparton.

BUY OUR BEEF AND KNOW THE DIFFERENCE—Threshers will appreciate it!

GOOD PORK SAUSAGE, per lb **15c** and we always have them!

Irma Trading Co.
Where Your Business Is Appreciated

Harvest News in the Advertising Columns

Harvest and harvest supplies are the keynotes in the advertising columns this week, presented by Irma merchants.

Looking through J. C. McFarland's advertisement you will find descriptive advertising of many things men need. For instance, work socks, windbreakers, combination underwear, are featured for men; boys are not forgotten; neither are the women. Look for a special that is being offered on September 10th to 15th. And don't forget the grocery list for your harvest needs.

The Irma Trading Co. are telling the world this week about the beef and pork sausage that taste so good on the harvest table. Your radio will also find here what it needs to put it in good working order; a special offering in gloves for threshermen, and many other numerous supplies that are timely and useful.

Lovig's Service Station call attention to the fact that you can now get new and used radios at their place, and now is the time to get your radio tubes tested. Look your machine over and see how the batteries and tubes are, and let Lovig serve you. Read the advertisements each week. They are your local buying guide—and save you time and money.

WHEN TO STOP ADVERTISING

When There Is No Competition, No New Goods, No New People

When every man has become so thoroughly a creature of habit that he will certainly buy this year when he bought last year. When young and fresher concerns in your line cease starting up and using the newspapers in telling the people how much better they can do for them than you can. When nobody else thinks "it pays to advertise". When the population ceases to multiply and the generations that crowd after you, and never heard of you, come on. When you have convinced everybody whose life will touch yours, that you have better goods and lower prices than they can get anywhere outside of your store. When you perceive it to be the rule that men who never do and never did advertise are outstripping their neighbors in the same line of business. When men stop making fortunes right in your sight, solely through the discreet use of this mighty agent. When you can find the words of the shrewd and most successful business men concerning the main cause of their prosperity.

—From Red Deer Advocate.

"Do you think two can live as cheaply as one?" asked one young fellow of another at the dance. "Not if the girl smokes cigarettes, too," was the reply.

The Eradication of Perennial Sow Thistle

Perennial Sow Thistle is one of the most dangerous weeds we have to contend with. It has been instrumental in driving farmers off the wheatlands in parts of Manitoba, and unless people give more thought to its eradication it may do the same here. Wherever hoe crops are uncommon, it is difficult to eradicate by the ordinary methods of cultivation. We are taking this opportunity to point a few essential points in its eradication.

1. Where there is a large infestation, an acre or more, it should be fall plowed and left rough during the winter. Then a black summerfallow should be practiced the following year and when I say BLACK I mean cultivating at least every week during the spring and early summer and at least every ten days during the rest of the year.

2. In the case of a small patch it may be covered with tar paper, held down by earth and left for a period of at least two years. Some people effect smothering by blowing a straw stack over the patch or covering with about 4 ft. of heavy manure. In all cases be sure you cover an area of from 4 to 6 ft. around the outside of the patch to prevent roots at the extremity of the patch from making an appearance.

3. Chemicals have proven efficient where they have been properly used. They should be mixed at the rate of 2 lbs. per gal. of water and applied by spraying or sprinkling 2 gals. of the mixture on 100 sq. ft. of land. This necessitates measuring the land for best results. Better results can be obtained by cutting and removing all the vegetation, thus permitting the poison to go down the hollow stem and also better sterilize the ground. The ground will not regain its fertility for about two or three years.

4. Hand digging must be thorough—Dig and burn all the roots you can find and then re-visit the patch about every week and again dig and burn the roots of any plants that may have come up. After doing this two or three times you will have got most of the roots but it is best to watch the remainder of the year to make a complete job.

These are the most effective methods known which are both practical and efficient. You may choose that which better suits the area of the patch and its location. Your local weed inspector would be glad to give you the benefit of his experience.

Nearly every farm in the district has some of this weed, and now, since it is yet confined to small patches, it is the time to eradicate it. Immediate action will mean a big saving in the future.

Irma Locals

The Irma school board held their regular September meeting last Monday evening. At this meeting Mrs. Schonert's resignation was accepted, which will mean a meeting of the electors of the district will have to be held in the near future to elect some one to fill the vacancy.

It is reported that a number of dogs belonging to residents of the village of Irma are causing considerable annoyance to cattle pasturing near the village. These dogs apparently go out hunting for rabbits and then get to chasing the cattle, sometimes driving them through a barbed wire fence.

The production of motor passenger cars in Canada in the year 1933 reached a total of 53,855, while the number of motor trucks manufactured in the same year was 11,997. The total registration of cars in Canada for 1933 was 916,953 and of trucks 166,004 according to a booklet published by the Canadian Automobile Chamber of Commerce.

More provincial work camps may be closed next week in the southern portion of the province. Five of these camps have been shut down already, men having left in large numbers to take up work in the harvest fields. The number of men in other camps is steadily getting less and they may be closed.

The Camrose branch of the Alberta Fish and Game Protective League has just announced that a total of 2,017 eggs of crows were received and 198 crows feet turned in in the way on these birds. The latter figure is augmented by 3,300 pairs of crows' feet turned in at the Bailey theatre as admission to picture shows during the year. This is driving the onslaught on the pests with a vengeance.

WEEKLY REVIEW PROV. MARKETS

Cattle

BEEF—Choice heavy steers from 2.75@3.25; choice light 2.75@3.25; good 2.50@2.75; medium 2.25@2.50, and common from 1.50@2.25. Choice heifers brought 2.50@3 and good 2.25@2.50. Choice cows sold at 1.50@1.75; good from 1.25@1.50; medium 1.10@1.25; common 75c @ \$1 and canners and cutters from 50c@75c. Choice bulls went at 1.25 @1.50; medium 1.10@1.25, and canners made 93c@95c and common 85c@1.15. FEEDERS—STOCKERS—Feeder steers from 1.50@1.75; stock steers 1.25@1.50; stock heifers 1.25@1.50 and stock cows 85c@1.25.

Hogs

Edmonton market was firmer also, with hams at 85c; select 8.50, and butchers 7.50, fed and watered.

Sheep

At Edmonton sheep and lambs were steady. Yearlings 22c@23c; ewes from 18c@22c; lambs 3.25@4.25.

Eggs

Prices remain steady: Grade "A" 15c@16c; "B" 13c@14c; "C" 10c@11c.

Hay—Feed Oats—Greenfeed

HAY—Offerings still light. Harvest work and the prospect of better prices as season advances believed to be responsible for slow movement. Brandon reports receiving orders for purchase of \$10,000,000 worth of feed for United States drought areas. Action of the federal government is awaited. Prices unchanged for this week: Upland, loose, \$10; baled, 10.50 ton delivered. FEED OATS—Price shows firmer at 36c@37c bushel. Demand quite active with offerings light. GREENFEED—Few arrivals so far and early ripening season may result in heavier oat threshing and less greenfeed. Demand good. Receipts too light to establish market price.

News From The Capital By T. B. Windross

Edmonton, Alta. Sept. 4, 1934.—That Alma Armstrong, 20-year-old waitress, died as the result of a gunshot wound in the throat inflicted by a gun in the hand of someone other than herself, was the verdict of a coroner's jury Saturday, following an hour's deliberation.

Captain T. W. Higginson, 45-year-old insurance agent, has been charged with murder following the girl's death. In a statement to the police he claimed the girl shot herself. Witnesses at the inquest swore that a few hours before her death the girl had declared "Tommy Higginson shot me, because I wouldn't make love to him."

Mr. Justice Ives, dismissing with costs the action of Vivian MacMillan, of Edson, and her father, A. D. MacMillan, against former premier J. E. Brownlee was made at the court-house, Edmonton, on Saturday.

At the trial of action last June the jury awarded Miss MacMillan and her father \$10,000 and \$5,000 respectively as damages for the alleged seduction of the girl plaintiff but Mr. Justice Ives upset the decision as to damages.

Notice of appeal was filed on July 20. It will not be heard at the next session, because the appeal books have not been ordered yet.

Farmers all over Alberta will be interested in the announcement that the Farmers' Debt Act became operative Saturday. Insolvent farmers in Alberta, Saskatchewan and Manitoba will be able to take advantage of the dominion's new legislation and compose their debts along the lines of ordinary assignment procedure without loss of their means of obtaining a livelihood.

Civilized society is what people are when they know they are watched, says a careful observer.

NEWS ITEMS FROM JARROW

Dr. Nickol, Supt. of Missions, Rev. Geeson and Mrs. Geeson were visitors at the manse last week.

Mr. and Mrs. W. Kerns, of Kinsella, Mr. and Mrs. Tripp of Irma, and Rev. and Mrs. Griffith were entertained at the home of Mr. and Mrs. John Waite for dinner on Sunday last.

A joint meeting of the Kinsella and Jarrow ladies' aids was held at the manse on Wed. Sept. 5th.

Miss Reta Bothwell has returned to Jarrow and resumed her duties as "school marm".

Mr. Jim Miller, who had an attack of septic throat, is again able to be at his post in the Red and White store.

Bobby Coe was operated on for appendicitis at the Wainwright hospital on Monday, Sept. 3rd.

Rev. Bateman, of Wainwright, was a caller in Jarrow last Tuesday.

Miss Veda Marby, of Melville, Sask., is visiting at the home of her brother, Mr. Richard Marby.

Mr. W. Kerns accompanied Rev. Griffith to the Malbrae school last Sunday and sang the solos which were greatly appreciated.

Mr. H. Barton is now dealing in gas and oil as well as farm implements.

We are sorry to hear that Mr. Meisner, Morgan's mechanic, has left town. We hope business will soon improve so that Mr. Meisner will be able to continue his service among us.

The farmers are all anxiously waiting for dry weather to begin threshing operations. Two threshing outfits have been overhauled in town and are now ready for work.

Our station agent, Mr. Williams, and family have returned from a pleasant two month's holiday, spent at Vancouver.

Mr. Thompson, the relief agent, and family have returned to their home in Edmonton.

Four Per Cent Dividend On Grain Growers Shares

Announcement is made by United Grain Growers Ltd., of the payment of a dividend of four per cent, or one dollar per share on the paid up capital of United Grain Growers Ltd. for the fiscal year ending July 31st. In announcing the dividend Mr. R. S. Law, president of the company, stated that payment is made from the earnings of the company after making provision for bond interest and full depreciation, and a satisfactory addition to surplus account. Attention was called to the fact that the shareholders have received, during the life of the company, by way of dividends, an amount greatly in excess of the paid up capital of United Grain Growers Ltd. Cheques for the dividend just declared are to be mailed to shareholders on September 15th.

DATED CHEESE

Montreal, Que., August 28.—And now we have dated cheese. All Canadian cheese and all packages containing cheese are henceforth to be marked with the date of manufacture, states the Agricultural Department of the Canadian National Railways. The date must be applied to the cheese within twenty-four hours from the time it is removed from the press, according to a government ruling. It is felt that the adoption of this important regulation will assist greatly in increasing the sale of Canadian cheese.

Just what ails a young fellow who was taken sick here last week is explained in the following verse: He kissed her on the cheek, It seemed a shameful frolic, He's been laid up for a week— They say with painter's colic.

Irma Times for Job Printing.

NOTES OF INTEREST OF BUSY KINSELLA

Mr. Shippy, of Edmonton, arrived on Monday to take charge of the senior room in school.

Frank Williams met with a painful accident when the frame of a truck fell, breaking two of his toes, which will confine him to the house for a couple of weeks.

Miss Agnes Horinek left on Monday for her school at Prague.

Miss Eileen Davis, of Bruce, spent a few days in town last week.

Miss York, of Provost, is commencing her music class in town this week.

Miss Isolde Stronach left on Sunday for her school at Inland.

Mr. Meade was a visitor in town last week on his way to Wainwright to take up his new duties.

Mr. Philip Napier arrived home on Friday from a vacation in Vancouver.

Mrs. Davis, of Bruce, spent Labor Day with her son, Bruce, in town.

"I didn't see you in church Sunday," remarked a local church goer to a friend. "I perceived that you didn't," was the reply. "I passed the collection plate."

UNITED GRAIN GROWERS LIMITED

A DIVIDEND at the rate of four per cent has been declared on the paid-up capital stock of United Grain Growers Limited, for the financial year ending July 31, 1934. Cheques will be mailed on September 15, 1934, to shareholders of record at the close of business, July 31st. By order of the Board of Directors. R. S. LAW, President.

Winnipeg, Manitoba, August 24th, 1934.

ALBERTA TAXATION INQUIRY BOARD

Public sittings of the Board appointed to make inquiry into the taxation now imposed by the Province and by Municipal and other similar authorities, will be held at central points in the Province on dates to be announced later.

Those desirous of making representations before the Board at such sittings are requested to advise the Secretary on or before September 15, 1934, and anyone wishing to submit personal representations will please forward same to the undersigned.

Now It Could Be Done

Probably it is as direct reaction, to the appalling state of irritant unrest which keeps international nerves continually on edge that more is being written and heard now of peace and its perpetuation than was heard or written during the great fiasco which terminated in the framing of the Treaty of Versailles.

The Anglo-Saxon world, at least, has come to the conclusion that a treaty inspired by revenge and nurtured by fear is altogether too provocative an instrument to produce anything more than a mere armistice or truce. That section of the world now is convinced that the Christian virtues of humility and fraternity could and would provide a better background for an abiding peace featuring the essential conditions of harmony and mutual co-operation.

It is hard to concede that mankind is devoid of capacity to bring about this condition or state. In fact, when one scans the war efforts of the belligerent nations between 1914 and 1918, one is forced to conclude that only the Will is lacking. Were the efforts made then to destroy life and property exerted now to preserve life and property, world peace quickly would be achieved. There is no doubt of it.

If doubts be cherished, they would quickly be dissipated by reference to the recently published "War Memoirs" of David Lloyd George. First as Britain's Minister of Munitions then as her premier, Mr. Lloyd George was primarily responsible for organizing the country's human and industrial resources for victory. How far-reaching, how extensive that organization was, is vividly revealed in the pages of his narrative. All essential industries were brought within the compass of his authority. All were made to contribute their full quota to the national effort. That gigantic organization was established for the dual purpose of building up the allied, and of breaking down the enemy, capacity to endure. The achievement shows conclusively what can be done by organization on the grand scale.

Considering the efficacy of war-time organization and effort, surely it is not foolhardy to suggest that, were all the major nations of the world to unite in organizing in the cause of peace, lasting and prosperous peace would ensue. And were the same efforts applied to solving the economic problems of the peoples of the world unquestionably they, too, would yield.

It is a strange commentary on civilization and human progress that sacrifices to win a war should be described as "heroic" and, as such, borne with determination and a grin, while sacrifices to win a peace should be branded as humiliating and intolerable. It is strange, too, that war could be financed with no insuperable difficulty, while finances required in an economic depression to keep innocent people from starvation, present apparently insurmountable obstacles to the governments concerned.

Nicholas Murray Butler, noted American liberal, recently translated the financial cost of the world war into graphic and startling terms. It cost \$400 billion dollars. "With that money," he said, "we could have built a \$2,000 house, furnished it with \$1,000 worth of furniture, placed it on five acres of land worth \$100 an acre, and given this home to each and every family in the United States, Canada, Australia, England, Scotland, Wales, Ireland, France, Belgium, Germany and Russia. We could have given to each city of 20,000 inhabitants and over in each country named, a five million dollar library and a ten million dollar university. Out of what was left we could have set aside a sum at five per cent. that would provide a \$1,000 yearly salary for 125,000 teachers, and a like salary for another army of 125,000 nurses."

Four hundred billion dollars was expended in a war which took 30,000,000 lives. Surely, a similar amount expended in a peace, would save a similar number from sufferings attendant upon economic depression.

Recover Sunken Gold

Five Million Dollars Removed From Hold Of Steamer Laurentic

Bullion valued at £1,000,000 (\$5,000,000), was removed by a private salvage firm from the sunken steamer Laurentic, which went to the bottom with a German torpedo in 1917, the London Mail says.

Admiralty divers salvaged £5,000,000 between 1918 and 1924 and abandoned the remaining £1,000,000 because the ship had been smashed and buried in the sand.

Salvage operations on the steamship Laurentic, a 15,000-ton White Star liner which lay in 120 feet of water, are known to be among the most difficult ever attempted.

British navy divers clad in rubber suits made more than 5,000 dives to recover £5,000,000 worth of bullion.

The Laurentic was sunk off the mouth of Lough Swilly in Northern Ireland, in a position exposed to westerly and northwesterly gales.

Belongs To England

The origin of the tune "God Save the King," has always been a matter for argument, but most authorities agree on one point, that it is English. It was "adopted" by the Prussians, and with appropriate verses became the Prussian national anthem. So it is quite erroneous to say that it "belonged" to Germany, in the sense that it was borrowed from them.

Mail By Rocket

German Invention May Shoot Letters From Dover To Calais

A rocket mail service may be established between Dover, England, and Calais, France. The enterprise would employ the "Zucker" aluminum rocket, a German invention which was exhibited at the International Air Post Exposition in London the first part of May.

It is estimated that by means of the rocket service letters may be shot across the English Channel, a distance of 21 miles, in one minute.

It is reported locally that the inventor, after demonstrating the practicability of such a service, intends to approach the British and French governments with a view to arranging for a regular rocket mail service, a British syndicate being formed for the purpose. Under the proposed scheme, Calais would be the receiving and dispatching point for the continent.

Valuable Copper Salvaged

Five hundred tons of copper, valued at over \$80,000, were recovered from the sunken Spectator off Kingsdale, Irish Free State, by the Italian salvage ship Arpone in the first 14 days of operation. The Arpone is believed to be directly over the spot where the Lusitania was sunk by a torpedo during the World War. The Lusitania contains over \$5,000,000 in gold bullion.

Some Interesting Facts

Article Deals With African Desert Dust And Elephants

News of the World, London, says: "In an interesting article in the National Geographic Magazine it is stated that it is not only in this country that motor-buses are cursed, but that Arab camels are loud in protest and abuse of the motor, which fling choking clouds of dust all over the pilgrims.

"Away, thou son of a dog! By Allah! What an invention of the devil! May your bones break and be burnt to cinders by the sun!"

"But in another few years the poor camels may have still more cause to protest, for the road along which the pilgrims travel will probably be the route of the proposed Jeddah-Mecca railway.

"The same authority says that much of the elephant lore that is widely accepted is fabulous. The elephant has a wonderful memory, but the beast does not often resent a wrong. If elephants avenged every beating there would be a very high mortality among elephant trainers and attendants.

"If the trainer or keeper fears the animal, and does not at once subdue it with force, then that particular elephant will continue to intimidate him, and he may eventually be killed. If, however, he subdues it at once by force, it will then usually submit to his authority ever afterwards.

"It is often said that African elephants cannot be trained, and therefore are seldom seen in circuses or zoos. The African elephant is as easily trained as the Indian.

"The great Jumbo was taught to carry children on his back in the Congo, and was a docile and safe elephant. The Belgians at Aple, one of their stations in the Congo, are using trained African elephants to plough fields and to pile and carry logs and lumber."

Alberta Teachers

Considerable Versatility Is Demanded By School Boards

Some Alberta school boards apparently demand considerable versatility of talents in their school teachers. This was revealed at Edmonton as the hearing of appeals for alleged wrongful dismissal of teachers continued before Judge MacDonald, sitting as a board of reference.

A young woman teaching in the Willingdon district claimed she had been dismissed because she could not play the piano.

Another board, through its chairman, stated that the teacher had been dismissed because she was too high strung and was "continually bawling the pupils on the heads."

Almost Everything

A youth had just driven home from college, at the close of the term.

"Did you pass everything?" asked his mother anxiously.

"Everything but two motorcycles. They must have had airplane motors in them."

The "lost world" of southern Venezuela is being explored by a scientific expedition.

Fight Auto Invasion

French-Canadians Do Not Want Cars On Mount Royal

The only city in the Dominion which boasts a mountain in its midst is in the middle of a small war about the mountain.

Mount Royal, the rearing landmark from which the metropolis of Canada derives its name, is the bone of contention in an argument as to whether automobiles shall be allowed the first time in history to scale its summit.

The mountain broke into the headlines when Ald. J. Allan Bray ventured the suggestion motorists be permitted to wind their way upward to its wooded dells and broad expanses of green overlooking the modern city. An immediate storm of protest broke and thousands of citizens voiced their determination to preserve the primitive natural charm of Montreal's namesake for future generations to enjoy.

One of the few fortresses yet remaining against the advance of the automobile age, Mount Royal has continued to share its picturesque quaintness with Bermuda's motley avenues. To date, only pedestrians, bicyclists and the horse-drawn Victrolas which are heritages of another age in Montreal, are allowed on the mountain and the French-Canadians, who regard the great rock as part of the rich tradition of their land, declare the honking of the automobile horns will never be allowed to break its spell.

Have Suffered Most

Thousands Of German Professors Seek Work In Foreign Countries

Some 7,500 academic and professional refugees from Nazi Germany are now attempting to create a new existence for themselves in foreign countries, the New York Emergency Committee in Aid of Displaced German Scholars reveals. It is declared that "of all classes affected by the National-Socialist revolution in Germany, the academics are and the professionals have suffered the most."

A high commission for refugees coming from Germany is co-ordinating the work in various countries. Sixty German scholars have been placed in American institutions of higher learning. More than 1,300 German scholars have been displaced of whom 600 to 700 have or will shortly emigrate. Between 5,200 to 5,500 professional people have left Germany and 1,500 to 1,600 of the 7,000 German university students forced to quit their studies have sought refuge outside Germany.

British farmers registered as farm cheese-makers with the milk marketing board of Great Britain last month numbered 1,284, owning 54,000 cows with an estimated output of milk of 22,000,000 gallons per annum.

The total length of the Amazon river from the head-waters of the Ucayali is about 3,300 miles.

The Alekian coast, on Disenchantment Bay, rose 47 feet during the 1899 earthquake.

WHEN THE DAVIS CUP STAYED IN ENGLAND

Princess Helena Victoria shaking hands with Fred Perry, Britain's No. 1 player, whose victorious match with Frank Shields of the United States decided the issue of the Davis Cup Challenge Round. Perry won both his singles matches as did "Bunny" Austin, England's second ranking star. Mr. Roper Barrett, the non-playing captain of the British team, is seen holding the Cup.

Gigantic Cunard White Star Liner

Some Startling Facts About The New Queen Of The Seas

The name of the new Cunard White Star superliner now known as No. 534 will be divulged 24 hours before the hull slips down the ways at Clydebank, Scotland. Queen Mary, attended by King George V., will launch the new steamer. The ship will be at least 1,018 feet long and register 73,000 or more gross tons. She will cross the Atlantic from England and France in four days. The cost of the superliner has been estimated at \$30,000,000. The vessel will have 11 decks, one the first class promenade being 750 feet long, just 35 feet less than the entire length of the Mauritania. She will be five times the length of the original Cunarder, the Britannia. The height to the mainmast will be 250 feet. The rudder will weigh 143 tons. The Aquitania is but half this weight. The steel plates range from 8 feet in length to 30 feet, and weigh from 200 to 6,000 pounds.

There will be 2,000 portholes and windows, the panes of glass ranging from 12 inches in diameter to large oval panes two feet in height. The anchor cables, wire hawsers and ropes for the ship will be more than four miles in length. The anchors, of special design, will be the world's largest. There will be 60,000 cubic feet of refrigerating space. The automatic steering gear will be the largest on any ship. The ship will be driven by single-reduction geared turbines supplied with steam from high-pressure water-tube boilers. There will be four screw propellers, each driven by an independent set of machinery. The driving machinery will be placed in two separate engine rooms. Four turbo-generators will supply power to the auxiliary machinery. Three others will supply light and power for the hotel services of whom 600 will be used. The propellers will each weigh 35 tons and measure 20 feet from tip to tip. The 12,000-horsepower turbine blades, varying in length from two to 18 inches and geared to the thousandth part of an inch. The Clyde River has been widened and deepened to the launching at a cost of \$400,000. The new superliner is being built in the yards of John Brown & Co. Ltd., where the Aquitania was built.

There will be three funnels. The first funnel will be more than 70 feet in height; the second, 50 feet. This arrangement will keep the decks and ventilators clear of funnel gases. The hull of the first Cunarder, the Britannia, could be passed through any one of the funnels of the new superliner. The ship will contain 50 miles of plumbing pipes. The electric lighting system is sufficient to service a city of more than 150,000 inhabitants, such as Quebec, Hamilton or Ottawa. Steam will be generated in 27 enormous boilers. The number of tubes in the main and auxiliary condensers will approximate 60,000. The electrical wire used would reach from Halifax to Vancouver and then 400 miles out into the Pacific ocean.

The giant's stacks will be thirty feet in diameter, exceeding the Holland Tube, between New York and Jersey City, by six inches. From the keel to the top of the foremost funnel is equal to the height of an 18-story building. The engines of the 534 will generate 200,000 horsepower—enough to tow Staten Island across the Atlantic. The make up of the ship will require 35,000 tons of steel. The catering department will contain 200,000 pieces of crockery. Ten miles of carpets will be used in covering the ship's floors. Tableware, including knives, forks, spoons, etc., will total 100,000. The ship's decorations will cost \$2,500,000. Her steadiness will be assured by a million-dollar gyroscopic device weighing 300 tons. This device will keep the ship steady in the roughest sea. The captain's bridge will be 100 feet above the water line. The steamer's ventilators will be large enough to swallow a subway car. The sun deck will contain shady garden, lounges, palm courts and swimming pools, giving a tropical aspect to the surroundings during all the seasons. The steamer will be insured for approximately £7,000,000.

In her 53 flights across the Atlantic, the Graf Zeppelin has never been more than an hour behind her schedule and in many cases she has been several hours ahead.

Tests have shown that actors or speakers in a hall should speak louder in cold weather, because the heavy clothing of the audience absorbs more sound.

An aviator's hand gauge for measuring wind velocity, small enough to be slipped into a pocket is being used by Russian airmen.

Commemorate Early Flight

Aeroplanes Kept In Air From Dawn To Dusk At Edmonton

The twenty-fifth anniversary of flying in Canada was effectively commemorated at Edmonton recently when some 15 members of the Edmonton and Northern Alberta Aero Club kept an aeroplane aloft for 15 hours, 15 minutes in "a dawn-to-dusk" flight.

In common with other flying clubs across the Dominion, the flights were carried out, each machine staying in the air for shifts of one hour, to be replaced by another before the first had touched the ground.

Pilot C. North Sawie, hopping off at 5:00 a.m., was the first to commence the flight, while Pilot Sven Jensen was the last to land when he brought his machine down at 6:35 p.m. after a black rain cloud and thunder made the sky too black to continue.

Miss Margaret Fane was the only woman pilot to take part in the commemoration of the flight made by "Casey" Baldwin, who hopped off in his crudely-made "Silver Hawk" 25 years ago, August 16, in Nova Scotia.

London's Newest Building

Has Hotel Service And Every Accommodation For Tenants

"Flatlet" is the newly coined name to describe a \$10,000 block of flats which is being completed in London. The name is intended to describe flatlets having hotel service. There will be 50 flats, accommodating 1,200 people. As far as possible every daily want of the tenants—food, clothing services—will be available within the building. A shopping expedition of the flat-dwellers will be merely a trip to the ground floor, and there will be restaurants, dining rooms, barber shops and beauty parlors. A novel feature will be a terrace, 16 feet wide, surrounding the top floor of the building. It resembles a linen promenade deck and will be available for sun-bathing and exercise.

Wanted His Razor

Portland Man Would Shave With Blade That Almost Killed Wife

You can choose your own title for this one. Here's the story.

A little man entered the police station at Portland, Oregon, and asked for the razor which his wife used to slash her throat in an unsuccessful suicide attempt a few days ago.

"What do you want with the razor?" a police sergeant asked. "I want to shave!" was the cool reply. It was suggested that he buy a new razor.

Mother—Here is a nice book from which I shall read to you.

Little Girl—What did you bring me that book to be read out of for?

CAN'T SLIP OR SLIDE FALSE TEETH

Don't use any old kind of remedy to keep false teeth in place—use a reliable, recognized one which dentists prescribe such as Dr. Wernert's Powder—the largest seller in the world—grasps teeth so secure yet comfortable they feel natural. Positively no slipping or clicking—no chafing, no soreness, no bad odor. Forms a special comfort cushion to protect and soothe gums. No colored, gummy paste—keeps mouth smiling—breath pleasant. Luxurious—all druggists.

The Handiest thing in the KITCHEN—HANDI-ROLL

For covering shelves, lining drawers, etc. 18 feet white or colored rolls. All dealers, or write—Appleford Paper Products, Hamilton, Ontario.

Looseness Of the Bowels During the Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels. Generally it develops into Diarrhoea, Dysentery or Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly. Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Here's a PAINTING BOOK

FREE for the asking!

And a chance to WIN one of the many fine prizes!

You are just going to love the Painting Book prepared for you by the makers of Keen's Mustard... pages of dandy pictures that you can colour with your own paints or crayons!

Tell Mother you are going to the store to get a KEEN'S GIFT BOOK!

Get your copy right away, for your dealer has only a limited number for free distribution, and we don't want YOU to miss out on this gift. You, too, will say "It's as Keen as Mustard!"

And maybe you will win a fine prize—in money, a bicycle, roller skates or a ping pong set, baseball bats or dolls or doll's carriage, etc. Wouldn't that be grand?

Remember, you don't have to buy anything to get this book, though when you tell Mother to get you a KEEN'S MUSTARD back with you. So get busy. Ask for your book today. Start painting and show folks what a swell artist you are.

You cannot see the Book from your grocer, write to us for it, enclosing 2¢ stamp to cover cost of mailing and packing. Address: 1000 Avenue St. Montreal, P.Q.

KEEN'S

D.S.F. Mustard

OCCASIONAL WIFE

By EDNA ROBB WEBSTER
Author of "Joretta," "Lipstick Girl," Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for them. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art with the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter; Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go to a cabaret to continue the revelry, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake, it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but he refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of \$1,000. Peter finishes his exhibit and asks Avis and Camilla for suggestions as to a name for it. Camilla suggests "Eager Youth" and Avis "Inspiration." Peter adopts the latter title and Camilla, heartbroken, goes to Peter's studio for quiet and to think. Peter and Avis follow later, and as the lights are turned on, see the statue has been shattered to pieces. Avis accuses Camilla of doing this, and Camilla, stunned by the disaster, and hurt and horrified by the accusation, faints.

At Camilla's suggestion, Peter enters as his exhibit a statue he has captured especially for her as a wedding gift. They named it "Land of Hope."

Camilla's advertising campaign and Tiny Tots broadcast was a great success. Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the author and artist who was so ably stimulating business for his company.

Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France. After the ship's departure from New York, he is on his way to his cabin when he meets Avis Werth.

(Now Go On With The Story)

CHAPTER LVIII.

It was in such a mood, when Peter had been exceptionally gentle and solicitous during the evening, that Avis ventured upon a long-dropped subject while they smoked and talked in a secluded corner of the deck together. He had not mentioned Camilla's name in her presence that day, and she risked the remark

"Blue" Spells

Reduce some women to the pensive shadow of their own smiling selves. Others take the Vegetable Compound when they feel the "blues" coming on. It steadies quivering nerves... helps to tone up the general health... gives them more pep... more charm.

VEGETABLE COMPOUND

W. N. U. 2061

are in love with some man who doesn't—reciprocate?"

She nodded silently her head resting against the back of the chair and her half-open eyes watching him covertly.

"I'd say he was all kinds of a sap not to wake up and find himself," Peter declared forcefully, then sighed deeply. "Gosh, this love business is a wild, untamed thing, anyway. Why do people select their life partners by impulse and emotion instead of by practical reasoning as we venture into any other kind of business?"

"Because there is no getting away from love, I guess," pensively.

"Well, what is it, then? How do we recognize it when we do find it? Why isn't it complete for us?"

"Why, Peter, you talk as if you never had been in love!"

"Why?" tersely.

"Because you would know the answers to all those questions."

Silence. Then "Well, I don't." He could not escape from that strangling sensation which Avis' revelation about Camilla had given him. The thought that she, his precious Camilla, would so betray and humiliate him at the very climax of his ambitious efforts tortured him like the closing of a garrote around his neck. He might have doubted her guilt, had Avis not told him so simply and as if unaware that she was betraying the other's confidence in her. No, it was true enough; but the more he revolved the thing in his mind, the more confused and hurt and angry he became.

He brooded in silence for awhile, into which Avis did not intrude. Finally, he arose impatiently as if the inertia of sitting quietly was no longer to be endured. "Should, you like to go in?" he asked tensely. "I'm not in of a companion this evening. This thing has got me about Camilla. I hope you understand that I'm not—"

"Of course," she interrupted kindly. "I'm only so sorry that I mentioned it, Peter."

"I'm glad—gladly glad to know it," he contradicted. "More than anything else, I hate deceit. It helps a lot to know just how things stand."

"Well, don't you do anything rash—like jumping overboard."

"Not on your life. I think I have discovered one more thing tonight—that love isn't worth all the suffering we take with it."

"Oh, Peter, dear don't be cynical," Avis pleaded.

"I'm not. Only being sensible." She laughed softly. "You are much too romantic to renounce love. Get a hold of yourself, please. Good night, Peter."

He smiled down at her with a new tenderness. "Good night, little pal," she carried away with her the light in his eyes, hugging it to her heart; remembered the vehemence of his renunciation of love. That would do for a beginning, she exulted. If she could take him along that far toward her goal within four days, what might she not accomplish in a year? By that time, she could make him wonder what he ever saw that was attractive about Camilla. She would make herself indispensable to his life.

Camilla resolutely followed—the routine of her days and thanked the benevolence of blessed, fatiguing, mind-occupying work. If two days could be so interminable and wretched as this, how was she going to endure the year ahead of her? She tried to convince herself that as time passed, she would become accustomed to Peter's absence and would be happier. But she did not want time and absence to dull her need of Peter. If so, what then? She would have nothing left. Nothing for which to live and hope and work. Life then would be just a monotonous existence, without aim or reason or pleasure.

And what if Peter, immersed in the routine of her days and thanked the benevolence of blessed, fatiguing, mind-occupying work. If two days could be so interminable and wretched as this, how was she going to endure the year ahead of her? She tried to convince herself that as time passed, she would become accustomed to Peter's absence and would be happier. But she did not want time and absence to dull her need of Peter. If so, what then? She would have nothing left. Nothing for which to live and hope and work. Life then would be just a monotonous existence, without aim or reason or pleasure.

Resolutely, she put her thoughts aside and summoned her will to concentrate upon the fictional lives of her characters. She was working at the office, but nowhere could she prevent her thoughts of Peter entering.

Her secretary announced a gentleman to see her. "He said it was urgent, but would he give his name," Miss Scott explained.

Camilla frowned with annoyance. "Probably another high-class beggar who got in with his air of importance. This radio publicity makes me a good target for such people. I'll see him for a minute."

(To Be Continued)

As long ago as 1868, Westminster, England, tried out a red and green traffic signal in the form of a gas lamp and used only at night.

Eloquent Plea Of Indian

Magistrate Dismisses Case Of Breach Of Game Laws

"Canada is our country; God gave us mouths to eat and put game in the country for us to live on. It is the only way we have of getting a living. You white men have an education and a job to live by, but we have no other way," John O'Case, Chippewa Indian chief, explained to Magistrate R. E. Thurber of Edson, Alta., when charged with illegal possession of big game carcasses. The magistrate dismissed the case.

Evidence disclosed that in July a party of 40 Chippewa Indians moved from the Rocky Mountain House district to Marlboro and began to kill moose and deer. Alarmed lest game should be exterminated through a general slaughter, citizens complained.

The magistrate, in announcing his decision, said that unless he had instructions from the attorney-general's department he could not see his way clear to convict the full-blooded, non-treaty Indians who were not live on reserves, as long as they were not making a wholesale slaughter.

He took the stand that the Indians knew of no other way of making a living and unless the government was prepared to look after them, he was not prepared to register a conviction.

A sister of the accused chief, who asked if she should address the court after permission was taken, and who received permission to do so, described eloquently the experiences of her tribe and how loyal they had been to the white people in times of trouble. She claimed on one occasion when the Prince of Wales was visiting in their district his Royal Highness had told them that they could hunt for a living. Her address lasted 45 minutes, during which she made a stirring plea for her brother, pointing out that they had a mother 105 years old to take care of.

On dismissing the case, the magistrate warned the chief that he must endeavor to obey the laws of the land as far as possible. Chief O'Case agreed readily and shook hands with the magistrate.

Proud Of Its Record

Tree In Nova Scotia 170 Years Old Still Bearing Apples

George R. Whitehead believes he has on his farm at Lawrencetown, Nova Scotia, the oldest apple-bearing tree in the Annapolis valley. It is 170 years old and in its life-time has produced 600 barrels of excellent fruit.

The seed for the leafy giant came up with the Whitman family from New England in 1762. It was planted by Mr. Whitman's great-grandfather, Long years ago the seedling tree was grafted with the Nonpareil variety.

Some seasons it produced 12 barrels of marketable apples and while orchardists of Canada's great orchard country were bemoaning the fact that the last severe winter affected many of their trees, Mr. Whitehead's "old faithful" blossomed forth lovelier than ever.

Paris Has Good Zoo

Paris boasts that its new zoo, which was opened by the President of France, is one of the largest and most complete in the world. It covers 35 acres in the heart of the Bois de Vincennes, on part of the site of the Colonial Exhibition of 1931. It is larger than the London, Amsterdam or Antwerp zoos and contains 2,000 animals, including specimens from every part of the globe.

Niece (in the picture gallery): "Aunt Sarah, this is the famous 'Angulus,' by Millet."

Aunt Sarah: "Well, I never! That man had the nerve to copy the calendar that has hung in our kitchen for a dozen years or more."

People who own canoes should put a "No Tipping" sign on them.

BUT MADE-IN-CANADA GOODS

Ancient Doll Goes Modern

Prized Possession Of Ontario Child Is 134 Years Old

Prized possession of a little Kitchener, Ontario, girl is a wooden doll said to be 134 years old, handed down by her great-great-grandmother, in Germany from generation to generation.

Brought to Canada in a wooden chest whose date of manufacture was indicated as 1800, the doll is believed to have been made the same year. The body is wood, with hinges fastened with screw nails for joints. The head, made of a substance resembling plaster of paris, is solid and fastened to the body with screws.

Mute witness to the triumphs of Napoleonic hosts, to the rise and fall of monarchs and empires, the doll by no means preserves the fashions of the dying years of the 18th century. Until the present owner obtained the doll from her mother, who in turn received it from her mother, "Frau-lein Gretchen" wore a crocheted gown made with a bustle and an old-fashioned bonnet to match. Now, however, she flaunts the acme of twentieth century modishness.

THE RHYMING OPTIMIST

By Aline Michaelis

TWO BIRDS

Two birds, flying wing to wing High above the plain, Sail through summer's blossoming Into night's domain.

Vast, pursuing shadows rise From earth's darkening face; Swiftly, through the fading skies Into dusk's embrace, Two birds, heedless of the voice Of the wind of night, Flying wing to wing rejoice In their silent flight.

Though they lose the sun's last spark And no comrade sing, Unafraid, they face the dark, Two birds, wing to wing.

Inventor Of Photography

Process Of Henry Fox Talbot Dates From 1835

Among inventors who have revolutionized life, Henry Fox Talbot of Lacock, England, is less well remembered than he should be, although, by means of patents, he took peculiar pains to establish the priority of his inventions over those of Daguerre. His centenary thus has particular interest. His earliest result dates from 1835, but he did not learn to "develop" until 1840. Progress continued to be slow and it is uncommon to come across photographs of more than experimental interest until Roger Fenton took a camera out to the Crimea in 1855.

The apricot is supposed to be a native of China and was brought in to Europe at the time of Alexander the Great.

Little Helps For This Week

"Study to show thyself approved unto God, a workman that needeth not to be ashamed." 2 Timothy 2:15. "And let us not be weary in well-doing; for in due season we shall reap if we faint not." Galatians 6:9.

The task Thy wisdom has assigned, Oh, let me cheerfully fulfill; In all my works Thy presence find, And prove Thine acceptable will.

—C. Wesley.

What is my next duty? What is the thing that lies nearest to me? That belongs to your every-day history. No one can answer that question but yourself. Your next duty is to determine just what your next duty is. There may be something you neglect, or something you know you ought to do. You would know your duty if you thought in earnest about it and were not ambitious of great things. If it is something commonplace that will make life dreary it will soon lead you to something more. Your duty will commence to comfort you at once, and will at length open the unknown fountain of life in your heart.—G. MacDonald.

Large Radio Order

An order from South America stated to be worth \$1,500,000, and believed to be the biggest order for radio equipment ever received in the United Kingdom, was booked by one firm at the opening of the great annual wireless exhibition at Olympia.

Robber crabs, natives of Christmas island, in the Indian ocean, climb coco-palm trees and break off the coconuts. They hammer in the ends of the shells with their strong claws.

Main Street

Mrs. Elizabeth Strauss, of Fabyan, visited Mrs. Parke Friday.

Harry Siceolski, from Silver Heights, spent Sunday with Irma friends.

Several new subscribers have been added to the rural phone lines south of town.

Leonard Bessey and Gilbert Turner, of Gadsby, spent Sunday at the Coffin home.

Threshing machines are being put to work this week in all parts of the Irma district.

Mrs. Simmons Sr. entertained her niece and husband, Mr. and Mrs. Perry, from Edmonton, recently.

Mrs. W. H. King is having her household goods moved to Edmonton, where she intends making her home.

Miss Rena Fenton is home again after three week's vacation in Calgary, Edmonton and Thorby, Alta.

Miss York, of Provost, arrived back in Irma last Monday to resume her duties as music teacher here and at Kinsella.

Mrs. O. Enger Sr., of Winter, Sask., is spending a few days with her sons, the Enger brothers of Crescent Hill district.

The Irma schools opened on Monday, September 3rd. The enrollment on the opening day in the public school was 61.

Mr. Love is away this week on a trip south selling his famous clover honey. Mr. Art. Hockett accompanied him for a brief holiday.

Miss Marie Webber is spending a month with her grandparents in Castor, Alta., where she is resting after her recent tonsil operation.

Mrs. Joe Colburn, of Prince George, B. C., Mrs. E. L. Peet and Mrs. Geo. Rubenok motored to Chigwell and Lacombe to visit Mrs. Cocklin, nee Edna Peet.

Mr. Bowen, of Wainwright, accompanied by Mr. Loeb, the new editor of the Wainwright Record and Irma Independent, were in Irma on Monday on business.

BORN—On Monday, August 27th, Hiram Barton (nee Florence Fitzpatrick) in the Misericordia hospital, a daughter. Both are reported progressing nicely.

Mr. and Mrs. A. Robertson and little daughter, of Edmonton, visited over the week end in Irma with Mrs. Robertson's brother and family, Mr. and Mrs. Jack Wilson.

Mr. and Mrs. J. D. Campbell and Mr. and Mrs. E. W. Armstrong, of Edmonton, visited their brother and family during the holidays, Mr. and Mrs. J. Fenton and family.

Miss Jean McLean was in Edmonton for the wedding of her cousin, Miss Catherine Deaton and Mr. Alex. Campbell, and spent the week end with her uncle and aunt, Mr. and Mrs. Harold Deaton.

Mr. and Mrs. Arthur Perry and daughter, Elmore, motored down from the city for the holiday with Mrs. Perry's aunt and cousins, Mr. and Mrs. S. G. Simmons, Mr. Sydney and Ernest Simmons and families.

Mrs. Carl Larson returned Saturday from Cold Harbor, N. Dak., after attending the funeral of her sister, at whose bedside she arrived one day before the latter's death. She reports exceedingly dry conditions prevailing in that state.

The Searle Grain Co. at Irma have lengthened their floor dump three ft. to accommodate the largest trucks, and have also added another cylinder to the air pump, which will raise the front of the truck or wagon 18 ins. more than formerly.

Mr. Percy Cowan, Mr. Mangus Dahl and Miss Ida Dahl, of Corke, Sask., motored up to Martin Enger's on Tuesday of this week, returning the next day. Miss Ida Dahl remained to assist Mrs. Martin Enger during the busy season.

J. Bishop and family, together with J. Rae and family, were among the invited guests at a dinner party given by Chas. Brickman, at Phillips, on Sunday. Mr. Brickman's guest diners are famous for "their luscious vegetables, and the corn, O boy!"

Mrs. S. V. Schonert and son John returned Tuesday evening from a business trip to Calgary. Ralph Schonert and Charles De Tro accompanied them to Calgary last Friday where Ralph will attend high school and Charlie normal school. John will take a commercial course. Mrs. Schonert intends leaving Irma about 1st October for Calgary, where she has secured a suitable location. Mrs. Schonert will be greatly missed in Irma, where she has been actively engaged in many social and other activities, being a member of the Irma United Church, Women's Institute and the Irma School Board, to which she was elected for the second time last February. Mrs. Schonert intends holding an auction sale towards the end of this month.

Viking Items

Clarence Hanson, 23-year-old son of Mr. and Mrs. Fred Hanson, residing three miles east of town near Lake Thomas, passed away in the Viking hospital on Sunday evening from injuries received when the car in which he was riding turned over and was badly smashed on the road a half mile west of the farm home, at about 5 o'clock p.m.

In the car with him when the accident happened, were his 17-year-old sister, Miss Ruby Hanson, and two other girls, the Misses Merle and Virge Martinell, young daughters of Mr. and Mrs. H. Martinell. The young ladies received only minor scratches, in fact were practically unhurt.

Clarence had been teaching his sister Ruby how to drive the car in the mynary. They decided to go out on the road and it was when they were returning home about half a mile from the house that the accident occurred.

Previous to this, young Hanson had been riding on the running board, but decided to get into the car and assist from the back seat. Going at a fair rate of speed the car must have got out of control and swerved to the left, rolled over and landed upside down, tearing the top off and smashing the running boards and windshield. The car was a 1926 Essex coach and was owned by the family.

A car driven by Mr. McAtthey came along shortly after the accident, and conveyed the injured young man and the girls to the hospital. Clarence rallied somewhat after reaching the hospital and his condition seemed fairly good, and was able to talk about the accident. About 3:30 p.m. his condition grew worse and he died from skull and other internal injuries.

Last Friday night was a big night for Viking and district in the sport circles of Edmonton. It was the occasion of a fistic triumph for Ed. Wenstob, local boy, who is making rapid strides in the boxing world and has a good start to the light heavyweight championship of Canada. No. only was it a decisive victory for Wenstob, but another Viking boy, George Scott, was a crowd pleaser and a winner in the preliminaries over a fast and sturdy boxer, "Mushy" Callahan of Calgary. Wenstob's opponent, claimant to the lightweight championship of France, and a contender for Canadian honors in the same division, proved no match for Wenstob's attack.

The two daily papers wrote columns about the programme, and we here reproduce an extract from the Edmonton Journal, which tells the story of the doings in a graphic way. The Bulletin was equally as enthusiastic in their reports:

"Smashing his opponent to the canvas in the first round and sinking him again in the second as he rattled left and right hooks off his chin, Eddie Wenstob, the 'Viking Flash,' won the most important fight of his young career when he triumphed over Jules Verque of Calgary, in the main bout of Promoter Michael 'Kap' Kaplan's professional fight card at the New Empire theatre on Friday night. Wenstob was awarded the honors when he scored a technical knockout in the third round.

A soiled towel, white enough to be effective to tell the story of a defeated fighter, ended the battle. It was tossed into the ring with dramatic suddenness. Verque, who has only recently returned to Calgary from France where he fought and defeated many of the best lightweightweights in the country, could do nothing with the Viking boy.

He Made Good

The Viking boy made good with a vengeance. He was not to be beaten in the first important fight of his career. He went out for the "kill." As hundreds of his supporters, many from Viking, Strone, Vermillion and other Alberta towns, cheered him to the echo and urged him on to the decisive victory, he made no mistakes. It was Wenstob's night. Victory meant a chance for a fight with Charley Belanger, lightweight champion of Canada. He was as fresh as the "proverbial daisy" at the end.

To those who have watched Wenstob in training the performance of the boy in the battle that starts him out on the trail that may lead to the fistic heights, last Friday's bout will always be remembered.

Fine Preliminaries

George Scott, of Viking, scored a victory over Mushy Callahan, of Calgary, in the opening four-round battle. The boys were fairly evenly matched, but Scott earned the decision.

School opened on Tuesday morning at nine o'clock with an attendance of over 170 in all rooms. About fifteen new pupils entered the primary room.

IN THE BEGINNING

Let there be light.
These were the first words spoken in our universe, according to Holy Writ.

We are told that the earth was without form and void, that darkness was upon the face of the deep and the spirit of God moved upon the face of the waters.

And, then, with the speaking of four words, the eternal gloom was rent, the dark miasmas that hovered over the sleeping world were lifted and suddenly brilliant sunshine flooded down upon the tumbling waters, outlining in this first moment of time the sparkling crest of each blue wave.

It must have been a sight for the Archangels to marvel at.

At one moment there was a blob of darkness hanging in the heavens with perhaps the faint roaring of unseen seas.

And then, in a split second, there appeared before the amazed eyes of the celestial armies a lovely growing world, with sunshine glinting on the waters and vast shadows that were continents emerging from the seas.

The space between darkness and light, between non-existence and existence, between gloom and brightness was bridged with only four words:

Let there be light.
The world is riding in a chaos of gloom today.

In Europe, governments are looking askance at each other.

Famine looms in China and in Russia.

One half of the world is destroying foods and goods while the other half is starving.

Millions of families are destitute, hopeless and despairing.

To a great part of the world's population, it looks as though life would never be fine and sweet again.

But if four words brought the earth out of dead darkness in the beginning surely there are words and thoughts and actions that are potent enough to roll away the little fog that is obscuring our well-being today.

Except as we have faith, we do not know whether the earth was created as described in Genesis or whether it came into being through other and longer processes.

But we know it exists. We know and love its beauties.

And we know, too, that, slowly or suddenly, it was evolved out of nothingness and the blackness of nothing-ending space by some Divine Will that commanded its appearance.

It was such a little step from darkness to sunshine in the beginning.

It must be an even shorter step out of our present darkness into the sunshine today—if we only knew the way.

Let there be light.—Vancouver Sun.

A PREMIER WHO DOES THINGS

Premier, Hepburn, the new premier of Ontario, is one premier who has taken the bull by the horns and is doing things. First thing he did was to clean house, cut out all unnecessary commissions and expenditures, sell the fleet of high-priced government cars, and his latest move is to cut the interest rate on Ontario provincial bonds to 2 1/2 percent. He told the money moguls that that was all the province was going to pay. Next time the province needs to borrow money no doubt he will get what he wants at even a lower rate. He is working for the tax-ridden people.

Christian Science

At all Christian Science Churches next Sunday, the subject of the lesson sermon will be "Matter." The following is one of the Scriptural quotations contained in the lesson sermon: "In God I will praise His word. In God I have put my trust; I will not fear, what flesh can do unto me"—Psalms 56:4). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (page 228): "If we follow the command of our Master, 'Take no thought for your life,' we shall never depend on bodily conditions, structure, or economy, but we shall be masters of the body, dictate its terms, and form control it with Truth."

STRAYED—From Sec. 18-44-8-4, 1 red and white Shorthorn cow, about 15 years old, branded on left rib Z and reversed K with bar above. Finder please notify Sam Skoke, Irma, Alta., and receive reward. 28p

Soup

(A Few Noodles by Tun)

"You have a nice place here, but the trees are rather small," said a lady visitor at a local residence. "Yes," replied the hostess, "they are rather small and I hope they'll be much larger by the time you call again."

"I want two eggs boiled exactly four minutes and when can I get them?" said a travelling man to a waitress in a local restaurant. "Yes, sir," she replied, "they'll be ready in half a minute."

"Your wife will not be able to speak above a whisper for a week or two?" said a doctor here to a local man. "Say, doctor," he inquired, "is there any hope of it becoming chronic?"

A want ad. in this paper does big work at small cost. Now is the time to sell, trade, or exchange for something else.
